

# Europe101

Europe101 is a free, online programme for 18-25 year olds, from or living in the European continent. During the four week programme, participants explore the Europe101 Model of Leadership which was developed alongside 400 young leaders. The Model is an expression of the hopes and ambitions of this generation, capturing a common approach to leadership. We have translated this model in to the Europe101 online programme.

Each week participants complete 1-2 hours of online content, interact with peers and gain insights from senior leaders across Europe.

400 young leaders have already participated in Europe101 programmes in March and May; three more programmes will take place in 2022. The programme will grow substantially in its reach and impact. Become part of the growing Europe101 network now.

*"Europe101 is a unique opportunity to connect with peers and leaders from across the continent. Participants will learn new skills and develop their leadership competencies. They will then be able to take these learnings back to their communities to make a real difference."*

Applications are open for Europe101 programmes in July, September and November 2022. Each programme will increase in scale and impact. Based on the current application trajectory and network growth, Europe101 November will host over 800 young leaders.

There is a huge appetite for Europe101 and a growing momentum with each programme delivered. By the end of 2022, 2200 young leaders will have participated in Europe101. We invite you to become part of the community of organisations and institutions partnering with us in order to provide this opportunity to the young leaders within your network.

**Nominate 5 of your exceptional young leaders and we will guarantee them a place on the next programme**

**Advertise the programme series as an open opportunity across your wider network**

**Become part of the Europe101 partner community, joining organisations including UEFA, EUYO, Deloitte, PwC, Universit  libre de Bruxelles and Scottish FA**
